Subject: Region 8 Feedback - Libby and other information

As an update to the decision document planned dates. The Libby ROD is now scheduled to be released by the end of the calendar year. The comment period was extended to 90 days. They may get it out as early as October but not by the end of the fiscal year.

The pre-NPL work on the Upper Animas Mining District is being conducted by EPA (and its contractors) and includes IAG with co-funding from BLM. They are also supporting an enforcement case against Sunnyside Gold (owned by Kinross).

Information on the observation (related to the contractor at the Colorado Smelter Site) was discussed with Bill Murray. Bill will follow up with the RPM.
